Objective

Creative and detail-oriented UI/UX Designer with a background in front-end development and a passion for creating user-centered digital experiences. Seeking to apply my design skills, Figma proficiency, and UX understanding to craft intuitive interfaces and engaging designs in a collaborative environment.

Skills

Design & UX:

- UI Design Principles
- Design Tools: Figma, Canva, Google Fonts
- Responsive Design, Accessibility, Color Theory, Typography

Development Tools:

- Languages: HTML, CSS, JavaScript
- Tools: VS Code, Figma, Git/GitHub, Chrome DevTools, WordPress
- Other: WordPress Design, Basic Animation with CSS/JS, Form Validation

Soft Skills:

- Communication • Creativity • Attention to Detail • Team Collaboration • Problem Solving

Education

B.Voc. (Web Development)

Community College of Skill Development, JC Bose UST, YMCA, Faridabad

Ongoing – 4th Semester (CGPA: 7.9 till 3rd Semester)

UI/UX Projects

All Projects Showcase: <https://shubh-portfolio.netlify.app/>

1. Personal Portfolio Website

Link: <https://shubh-portfolio.netlify.app/>

- Designed with a clean layout using Figma wireframes
- Showcases skills, projects, and visual consistency

2. Temperature Converter UI

Link: <https://temp-converters-shubh.netlify.app/>

- Minimal interface to convert between Celsius, Fahrenheit & Kelvin
- Focused on form layout, input validation, and user clarity

3. To-Do List Web App (UI Focused)

- Built clean and responsive task manager layout
- Implemented usability features and mobile responsiveness

Internship Experience

Web Development & Designing Intern

Oasis Infobyte – AICTE OIB-SIP (Sep 2024)

- Built responsive UI for web apps using Figma → HTML/CSS/JS
- Developed a temperature converter & a to-do list web app
- Practiced UX flows, user input handling, and responsiveness

Certifications & Learning

- AICTE Virtual Internship Certificate – Web Development
- Employability Skills Certification
- Self-learned UI/UX Concepts via YouTube, Design Blogs, and Mini Projects
